

Spanish as a Second Language

Spanish as a Second Language

Nowadays, Spanish is part of the languages that have become relevant for the global communication. In fact, it is the language with the most speakers worldwide, it is the official language in 21 countries and more than 400m people use it to communicate

Nowadays, Spanish is part of the languages that have become relevant for the global communication. In fact, it is the language with the most speakers worldwide, it is the official language in 21 countries and more than 400m people use it to communicate

This is a Spanish as a foreign language course for non-Spanish speakers so that they can reach a B1 CEFR level through the implementation of target language contents and materials which are developed based on a language and cultural approach; in so doing the course aims at the improvement of Spanish language communicative skills.

This course offers a strong academic structure along with personalized service and assistance. The program fulfills the expectations and needs of those international students or visitors who look for the improvement of their language skills in Spanish.

The program combines academic environment spaces for learning the target language along with socio-cultural activities to allow students interaction in real situations and contexts. Also, this prompts knowledge construction of the region and its culture.
